Objective

Passionate and results-driven Flutter Developer with 3+ years of experience building high-performance, cross-platform mobile applications. Specialized in Flutter, Firebase, Bloc, GetX, and multiplayer game development. Skilled in API integrations, real-time databases, and performance optimization. Adept at delivering scalable, user-centric solutions with a strong focus on UI/UX.

Skills

- Flutter
- Flame
- Firebase
- Android
- Github
- SQL
- Javascript
- Java

Education

Bachelor of Engineering
2016 - 2020
Oriental Institute of Science and technology, Bhopal

Personal Project

Sanatan Dharma App   Link 🔗

Key Features :
- Virtual Temple Experience: Live Darshan from temples across India.
- Chalisa and Strotoam Collections.
- Counter for chanting.
- Hindu Calendar & Festival Alerts.

Experience

Doodleblue Innovations Private Limited   May 2025 - Sep 2025
Software Engineer

- Worked as a Flutter Developer for Ashok Leyland (Hinduja Group) – Gro One App, a logistics and fleet management solution.
- Implemented core features using the BLoC state management pattern, ensuring maintainable and scalable architecture.
- Integrated REST APIs for real-time data synchronization across vehicles, drivers, and logistics workflows.
- Developed map-based functionalities including live vehicle tracking, route visualization, and geolocation services.
- Collaborated with client stakeholders (Ashok Leyland) to deliver high-performance mobile solutions tailored for enterprise logistics.

Zapplogics Solutions LLC   Nov 2024 - May 2025
Flutter Developer

- Developed and deployed interactive games and apps like **Plinko game, Aviator game, Bingo multiplayer game, Hostel management app, Pet management app** using Flutter, Flame, Firebase and Aws.
- Implemented real-time multiplayer features with Firebase Realtime Database, enhancing player experience.

NWAY Technologies Pvt. Ltd.   Oct 2023 - Nov 2024
Flutter Developer

Designed, developed, and maintained **Nway HRM, Nway Task Management App, and Nway TMS**.   Link 🔗 Link 🔗 Link 🔗

key features :
- GPS-based attendance tracking with GPS tagging, pay slip viewing and downloading, attendance rectification requests, leave application submissions, and manager approvals for various applications.
- Streamlined Task Management: Assign tasks, track progress, add comments, and attachments, and manage projects seamlessly.
- Increased Efficiency: Nway integrates time tracking, automated reminders, and insightful reporting for optimized workflows.
- Logistics and fleet management app streamlining transport operations
- Builty, Proof of Delivery (POD) management, Challan generation.

Maestro's Infotech   Sep 2022 - Oct 2023
Flutter Developer

- Contributed to the design and implementation of user interfaces (UIs) following Flutter best practices and design principles.
- Increased app stability by reducing crash rates through improved error handling.
- Integrated RESTful APIs and Firebase for seamless data synchronization.
